

## WASHINGTON NEWS - GOSSIP

By CHARLES BROOKS SMITH.

WASHINGTON, D. C., March 23.—Is there a married couple in West Virginia that can equal or beat the record of Mr. and Mrs. L. A. Ellis, of Pleasant, Pleasant county?

They are the parents of eight sons and all of them are in the army; all eight enlisted men.

Their entire family are serving with the colors at home and abroad, for there are no other children.

Father Ellis is 72 years old and Mother Ellis is seventy. They live on a farm, and when those of the boys who were on the homeplace helping with the work enlisted for the war, the aged couple, still in hale and hearty and able to work turned in and from early morning to late at night worked and worked hard tending the crops and the stock. They sent their eight boys to the front without a word of complaint, but proud, and told each and every one of them so, that he had made the fateful decision that the place for him was in the ranks fighting for the grand old flag. Father Ellis had done this in the sixties, and Mother Ellis, then a comely lassie, had made her sacrifice on the altar of patriotism then, too.

But now the war is ended. The boys are needed back home on the farm. The work has to be done. They could do it with just a little help. If they had just one of the boys back home to help them, they would make the burdens easier. They even hesitated to ask for the return of but one of the eight, and they evidently debated it along time between them whether they should write to their Congressman Woodward even for a little. They say that if Uncle Sam still wants all eight of them, a little while longer they will get along some how, although it is hard. Their years are so many they somehow can't get done the farm work like they used to; a body hates to admit getting old and not being able to do the things a body once did, and did so well and so easily, but a body must—a body that is old and worn with the years and the work. One's boys are a great help to a body then, Mr. Congressman.

Ben Louis Perkins, former resident of Parkersburg and well known in the State for having several years traveled West Virginia in the interest of an advertising firm, has sailed from New York for France. He is one of a party of four—and is in charge of the party—going to France on business for the Department of Agriculture. He has been connected with the bureau of markets of that Department for some time and has done considerable traveling in this country for the Department since becoming employed by it. Mr. Perkins will be located in France for several months, probably up till next fall. His wife and son, Edward, his brother Fred W. Perkins and his sister, Mrs. Stanley Higgins and the latter's husband accompanied him to New York to see him off on his trip.

The folks at Hinton, W. Va., will be interested in Mr. Perkins' pilgrimage, and pray for a safe voyage over and back, though they may not be aware of just what part in it they will have until they read the next sentence of this news item.

Ben Louis Perkins was the first child born in the now bustling and wealthy little town—the mountain city of Hinton, in the county of Summers.

Worn Out, Nervous Men and Weak Bloodless, Anaemic Women Have Found New Strength and Vigor in Taking Cadomene Tablets.

A well known writer on physical culture says: "You cannot run a high-powered engine without fuel. You cannot get much speed without plenty of steam. You cannot get up plenty of steam without plenty of coal and a perfectly working furnace (body). Similarly, in your own case, the internal 'works' must be sound and working properly."

That tired feeling do you know what it means? It means that digestion and nutrition are lacking. It means that your blood and nerves are impoverished. It means that slow but sure decline in your vitality will surely ensue and real sickness will overtake you, unless you bestir yourself in overcoming the weakness of the organs responsible. This is not written to frighten. In reality it expresses logical facts.
